

MGSID OPERATORS'S JOB DESCRIPTION

Part time position. The operators are trained and licensed by the Utah State Division of Water Quality as small lagoon wastewater level 1 certifications. The operators each work from two to ten hours per week depending on season and demand. When not doing the daily sampling and testing, operators may be involved in facility maintenance and improvements, vehicle maintenance or in manhole and sewer line inspections. Following are some of the principal tasks of the operators:

- Inspecting inflow, treatment and outflow subsystems to ensure their proper function
- Collecting wastewater samples and measuring their degree of acidity/alkalinity (pH), dissolved oxygen (DO) content, and residual chlorine in the outflow water
- Calibrating pH, DO and residual chlorine instruments
- Reading and recording values registered by various meters and gages
- Entering meter, gage and measurement data in the computer system
- Conducting scheduled maintenance operations such as pump cleaning and oiling, blower oil changes and motor lubrication
- Participating in manhole and sewer line inspection and maintenance operations
- Noting and reporting unusual incidents and potential problems to the administrator
- Troubleshooting and resolving mechanical, electrical and electronic problems with plant equipment
- Participating in the monthly system / safety meetings with the administrator
- Assisting in the annual review of system cleaning videos
- Inspecting lateral installation in new construction to ensure that the pipe is properly sloped and supported
- Taking training sessions provided by the Division of Water Quality and by the Rural Water Association
- Participating in upkeep of the facilities and grounds
- Recommending, planning, and participating in construction operations
- All other duties as deemed necessary

BENEFITS

Holidays are paid at time and a half the hourly rate if the holiday is worked, or paid at the hourly rate for the regularly scheduled work day if it normally falls on the same day as the holiday but is not worked.
